Many aspects of human sexuality are very puzzling. Take celibacy. This can be a choice or a condition imposed by environmental factors. While attending a Marriage Encounter Weekend, Robert and Cheryl listened to the instructor declare; 'It is essential that husbands and wives know things that are important to each other.' He addressed the men. 'Can you each name and describe your wife's favourite flower?' Robert leaned over, touched Cheryl's arm gently and whispered, 'Self Raising isn't it?' Thus began Robert's life of celibacy.....

Playground Update

After a hectic time fundraising we are at the point of sitting down with Elliston Council to organise a joint committee to go forward to start planning and construction of the Trudinger Park Playground upgrade.

A lot of meetings with council and the site consultants will be held over the next few months to finalise the setup of the playground area. Hopefully we will see construction starting by the end of the year with the bulk being done in the first half of 2011.

Without wonderful support from the community we would never have been able to reach the place where we could finish all that we wanted for the playground in one go.

Once again we would like to thank everyone for their fantastic and continuing support of the new playground.

Why I Volunteer

Interview with Carrol Cooper.

What do you enjoy about volunteering at the Info Centre?

You meet lots of interesting tourists. It's a great way of putting back into the community by helping and it stops you from being bored.

What is one service that the info centre offers that you previously didn't know was available?

Op shop is very handy. A lot of people do not realize what we have to offer. Our art exhibitions are rather good especially our local artist's works.

Any other comments.

The quality of giftware made by local people is great, they make good presents and tourists love finding things that are locally made.
